

**Del-Ray Products** are designed to nourish all types of skin, even the most sensitive. The formulas, all of which are fragrance-free, are ideal for use following micro-dermabrasions, chemical peels, laser and other medical procedures.

For more than 20 years, people with dry and sensitive scalp conditions have trusted Del-Ray shampoos. Dermatologists recommend these products for their gentle cleansing and/or therapeutic properties.

Del-Ray offers cleansers to meet the needs of every skin type. Our gentle formulas are free of soap, color and fragrance, while our bar soap deep-cleans pores to remove oil and bacteria. All are dermatologist recommended.
